

TTL Audio Productions

Student Recital Package: \$100

Information for CCM and Miami University students

Thank you for considering TTL for your recital recording. I work very hard for you to ensure that I capture your musical achievements with world-class sound quality in an attractive custom-designed presentation that makes you look and sound your best.

The recital package has been called “*the best value at CCM*”. It is a complete package that gets you unbeatable professional quality sound with no surprises or hidden fees, and even a chance to make your money back! Past clients have commented that their TTL recordings “*absolutely blow away*” anything done with a personal handheld recorder. We agree!

So what do you get in the package?

- **The recording.** I take care of all aspects of the audio recording so that you may fully concentrate on your performance.
- **Experience.** I've been engineering recordings professionally for over 15 years, recording all types of classical and acoustic music in all types of acoustical spaces. My recordings have been broadcast on locally and nationally produced Public Radio programs. Visit my website at www.ttlaudio.com to hear samples and read client testimonials.
- **The finest equipment.** I own and use some of the finest professional recording equipment available anywhere, including:
 - Schoeps and Sennheiser microphones (the same mics used by Telarc®)
 - DSD digital recording (the highest resolution recording technology available)
 - High-end microphone preamplifiers by DAV and Benchmark Media Systems
- **Editing and polishing.** My fee includes complete editing, post-production and full mastering of your recording. These steps are essential to make the sonic results polished, professional, and quite simply, *listenable*. Anything less is a waste of your money.
- **Professional graphic design.** My fee includes on-CD custom graphic design. Designs offer attractive photography or artwork, information about your recording (name, date, program information, etc), and may be developed using your ideas, your picture, etc. The design is then put on the CD via photo-quality full color inkjet printing.
- **Two finished CDs,** complete with on-disc graphic design packaged in slim CD cases, mailed directly to your home postpaid. As an option, MP3 downloads are available.
- **Dependability.** I don't back out on you. TTL will be there when we say we will, so you can relax and focus on making music. Also, our turnaround time after the recital is fast: your CDs will be in the mail within a couple of days.
- **Performance opportunities.** TTL clients are exclusively considered for professionally compensated performance opportunities in the greater Dayton/Cincinnati area.

Options available at additional cost include additional CD copies (\$5 each) and creation of high-quality MP3 files. Please contact me for more information or to schedule your recording.
